Management Information Systems Group

The task of developing a dictionary of standard data element names to be used during the design of ACIS has been completed. There are 626 data elements in the dictionary. The dictionary has been successfully loaded into the Data Catalog 2 and reports extracted. The dictionary includes: (1) data element name; (2) description; and, (3) attributes, including length, format, and justification. []

MEMORANDUM FOR: Deputy Director for Administration

FROM:

[Redacted]

Director of Data Processing

STAT

SUBJECT: ODP Report for Week Ending 30 December 1983

1. Automated Compensation and Information System (ACIS)

The Office of Data Processing (ODP) has received a letter, via the Office of Finance (OF), from Price Waterhouse offering its assistance to the ACIS Project. This assistance would be in determining the suitability of its Department of Defense (DOD) payroll system design for use on ACIS. We are in the process of studying its proposal and developing criteria to be used for the evaluation.

2. Case Applicant Processing Evaluation Report (CAPER)

The Office of Communications (OC) has begun installing the isolators for the [Redacted] minicomputer. Installation should be complete by 30 December, thereby providing the Office of Personnel (OP) with full remote terminal support for the CAPER System.

STAT

3. Significant Events During Coming Weeks

None.
